WHAT IS THE PRODUCT?

Product Type:

This Fund is a Sub-Fund of Aria SICAV PLC which is an open-ended Collective Investment Scheme with variable share capital which was incorporated in Malta on 22 June 2016 under registration number SV415 and is authorised by the Malta Financial Services Authority as an UCITS.

Maturity Date:

This Sub-Fund has no maturity date.

Objectives:

The investment objective of the Sub-Fund is to deliver medium to long term capital appreciation.

There is no guarantee that the investment objective of the Sub-Fund will be achieved and investment results may vary substantially over time.

Investment Policy:

The Sub-Fund will seek to achieve its investment objective through an active approach to asset selection and allocation. This approach will be based on an internal proprietary asset allocation model (the "Proprietary Model"). The Proprietary Model uses monthly inputs relating to macro-economic and risk factors to identify the sensitivity of each asset within its universe to changing macro-conditions and their exposure to risk factors. It then, in turn, generates a forward-looking estimate of each asset classes' return, volatility and covariance allowing it to determine an optimal asset allocation for current global market conditions.

The Investment Committee will then select specific instruments falling within the asset classes selected by the Proprietary model, which the Investment Committee considers will maximise performance of the Sub-Fund. The Investment Manager will have responsibility to execute day to day trades within the parameters set by the Investment Committee.

The Sub-Fund will mainly (or solely) invest in the following investments:

(a) collective investment schemes ("CISs") including exchange traded funds ("ETFs") Such CISs shall be established in jurisdictions such as but not limited to Ireland, other member states of the EEA and the UK. Such CISs may employ a wide variety of active and passive investment strategies and have an investment focus in asset classes such as (but not limited to) equities, government bonds, corporate bonds, commodities, infrastructure and immovable property (the "Asset Classes"). The CISs may also invest directly or indirectly in commodities such as gold (which is either traded and/or sourced globally).

The Sub-Fund may also invest in CISs that invest in commodities or immovable property directly or indirectly through the use of financial derivative instruments ("FDIs") or through ETFs. Where the CISs invest in commodities or

immovable property this may be directly (where permissible under the MFSA Rules) or indirectly through the use of Financial Derivative Instruments (FDIs), exchange-traded certificates (ETCs) or tracking of an index (such as an ETF).

In addition, the Sub-Fund may also invest in CISs that use FDIs for investment purposes or for efficient portfolio management purposes and/or for hedging purposes. Such CISs may use a wide variety of FDIs including futures, forwards, put and call options, swaps, swaptions, spot foreign exchange transactions, contracts for differences, credit default swaps and other credit derivatives.

(b) closed-ended investment trusts, or schemes constituting transferable securities, and structured products which provide exposure to the Asset Classes. These structured products will not provide any leveraged exposure to the underlying assets. Any investments in structured products will be limited to 10% of the Sub-Fund's NAV.

(c) direct investments in listed and traded equities and in fixed or floating income products

(d) FDIs The Sub-Fund itself may also utilise FDIs for investment purposes, efficient portfolio management, and for hedging purposes. Specifically, the Sub-Fund may use FDIs such as futures, forwards, contracts for difference (CFDs), and put and call options.

While the Investment Manager will look to ensure that the Sub-Fund invests via the investment instruments detailed above it reserves the right to alter the investment instruments utilised, in order to achieve the Sub-Fund objectives in the most effective and cost-efficient manner.

Benchmark Rate:

The fund does not have a benchmark

Dealing Frequency:

Investors may subscribe and redeem to units on a daily basis.

Distribution Policy:

Any income arising from the Sub-Fund is reinvested.

Target Market (Suitable For):

This Sub-Fund is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium level of risk of loss to their original capital in order to get a higher potential return.

Insurance Benefits:

No insurance products are offered through this Sub-Fund.

A SUB-FUND OF ARIA SICAV PLC - V1.2024

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN

The Summary Risk Indicator (SRI) is a guide to the level of risk of this product. It helps you assess risk and compare it with other products. It shows how likely it is that the product will lose money and whether the money you have invested has some form of protection.

The figure is based on 5 years of weekly performance data, where available. If 5 years of weekly data is not available for the Sub-Fund then the figure has been determined based on qualitative criteria limited to the nature of the product.

The risk indicator assumes you keep the product for the recommended holding period which can be found below. The risk can vary significantly if you cash in at a time, other than the end of the recommended holding period.

We have classified this Sub-Fund as 3 out of 7, which is medium-low risk. This rates the potential losses from future performance at a medium-low level and poor market conditions are unlikely to impact the capacity of the Aria SICAV to pay you should you redeem your investment. The Sub-Fund may be exposed to risks not included in the SRI including, but not limited to, the following:

Instrument risk: The Sub-Fund invests in securities that may go up or down daily for a variety of reasons including changes in interest rates, inflation expectations, perceived credit quality of the issuer, perceived value of underlying instrument or positive or adverse news.

Counterparty risk: As the Sub-Fund may enter into derivative agreements there is a risk that other parties may fail to meet their obligations. This may lead to delays in receiving amounts due to the Sub-Fund, receiving less than is due or receiving nothing.

Currency risk: As the Sub-Fund invests in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.

Market risk: The Sub-Fund holds no capital protection against market risk which cause the value of your investment to increase or decrease.

All investment involves risk, and you may receive back less than your investment amount. This Sub-Fund offers no guarantee against loss or that the Sub-Fund's objective will be attained. For a comprehensive list of risk factors that may apply to the investment, please refer to the offering supplement of the Sub-Fund. Please note that the share class risk category is not guaranteed and may change from time to time.

Performance Scenarios Scenarios	Investment amount (10,000)	5 years (Recommended Holding Period)		
		1 year	3 years	5 years
Stress Scenario	What you might get back after costs	7,082	6,911	7,017
	Average return each year	-29.18%	-11.59%	-6.84%
Unfavourable Scenario	What you might get back after costs	10,163	8,797	7,755
	Average return each year	1.63%	-4.18%	-4.96%
Moderate Scenario	What you might get back after costs	11,354	11,807	11,148
	Average return each year	13.54%	5.69%	2.20%
Favourable Scenario	What you might get back after costs	12,664	15,573	15,774
	Average return each year	26.64%	15.91%	9.54%

There is no minimum guaranteed return. You could lose some or all of your investment.

Unfavourable, Moderate and Favourable scenarios occurred with the exact date ranges as follows:

- 5 yrs: May 2019 – April 2024*
- 3 yrs: March 2019 – February 2022*
- 1 yr: December 2023 – November 2024

*The Sub-Fund is less than 5 years old, performance prior to the Sub-Fund's launch date (used in the simulations above) is based on the backdated performance of the 'AlphaPredictor Model' (APMABAL Index) which is the proprietary model the Sub-Fund looks to implement on a monthly basis. Past performance, simulated or real is not an accurate guide to future performance.

The figures shown include all the costs of the product but may not include additional third-party fees applicable based on the manner in which you access the strategy as well as your personal tax situation, which may affect how much you get back.

Past performance of any kind, actual or simulated, is not a reliable indicator of future performance. The scenarios shown are only an indication of some of the possible outcomes based on historical returns. Actual returns could be significantly lower than shown.

WHAT HAPPENS IF THE ARIA SICAV IS UNABLE TO PAY OUT?

The ARIA SICAV as the product manufacturer may close or wind up the Sub-Fund on terms as set out in the Prospectus. In this eventuality the value of an investment and any income taken from it is not guaranteed and can go down as well as up, you may not get back the amount you originally invested.

Investment Manager is responsible for the management of the Sub-Fund, and does not typically hold assets of the Company (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network).

If the Investment Manager defaults, investors in the Sub-Fund would not face any financial losses. However, investors may suffer loss if the Company or the depositary is unable to pay out. Furthermore, the value of an investment and any income taken from it is not guaranteed and can go down as well as up, you may not get back the amount you originally invested. Losses in the Company or the Sub-Fund is not covered by a guarantee or investor compensation scheme.

A SUB-FUND OF ARIA SICAV PLC

WHAT ARE THE COSTS?

The table shows the amounts that are taken from your investment to cover different types of costs. The amounts shown here are illustrations based on a specific investment amount, taking into consideration different holding Periods. The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Investment €10,000	if you cash in after 1 year	if you cash in after 5 years recommended holding period
Scenarios		
Total Costs	€ 261	€ 905
Annual Cost Impact	2.61%	1.81%

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories. The table also shows the impact on return per year. We also assumed that 10,000 EUR is invested.

			If you exit after 1 year
One-Off Costs upon Entry or Exit	Entry Costs	The impact of the costs you pay when entering an investment. We do not charge an entry fee for this product	n/a
	Exit Costs	The impact of the costs of exiting your investment when it matures. We do not charge an exit fee for this product	n/a
Ongoing Costs	Management fees and other administrative or operating costs	1.52% of the value of your investment per year. This percentage is based on actual costs over the last year.	152 EUR
	Transaction costs	0.09% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell	9 EUR
Incidental Costs	Performance fees	There is no performance fee for this Sub-Fund	n/a
	Carried Interest	There is no carried interest for this Sub-Fund.	n/a

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended holding period (RHP): 5 years

The Recommended Holding Period (RHP) of 5 years has been selected for illustrative purposes only and must not be taken as a guarantee or an indication of future performance, return or risk levels. This is the period over which the investment is expected to break-even. Note that this is not guaranteed and the more your actual holding period differs from the product's RHP, the more your actual risk of losing money will deviate from the product assumptions. If you wish, you may redeem before the RHP at the Net Asset Value of the product. Also, it may be that you have needs and constraints implying a different holding period suitable to you than the RHP. Thus, we recommend that you discuss this with your financial advisor.

H Class Shares can incur a Promoter Fee which amounts to 1% of the Net Asset Value attributable to each subscription. If charged this Promoter Fee is amortised per valuation point for the first 60 months of the investment. If an investment is redeemed prior to being held for 60 months then the full Distribution Charge would still be levied. The Directors reserve the right to waive or modify the Distributor Charge. Thus, we recommend that you discuss this with your financial advisor.

HOW CAN I COMPLAIN?

Any complaint regarding the person advising on, or selling the product can be submitted directly to that person or company. Any complaint regarding the product or the conduct of the Aria SICAV this can be submitted to the Investment Manager using the contact details below. The Investment Manager has established and implemented appropriate procedures and arrangements to ensure that it deals promptly and reasonably with investor complaints. The Investment Manager's Complaints Handling Procedure is available on the website www.ariacm.com. If you are dissatisfied with any part of the service, you have received you may make a complaint in writing to complaints@ariacm.com or at the registered office of Aria SICAV plc: Nu Bis Centre, Mosta Road, Lija LJA 9012, Malta.
